

Willow Weaving Workshop

By Willowpool Designs

Traditional & Contemporary Willow Weaving

Baskets, Living Willow, Sculptures, Garden Features, Demonstrations, Magical Willow Workshops, Courses & Commissions

We specialise in working with individuals, community, conservation/environment groups and schools to create willow structures that enhance parks, school grounds and gardens. We also work to commission and can create unique and durable living structures for play, shelter or habitat. We teach courses throughout the UK and run a wide range of willow courses at countryside locations for children and adults. We have worked with organisations such as the The Lake District National Park Authority, The National Trust, The Great North Forest, Groundwork Trust, Surestart, Natural England, BTCV, The Environment Agency, The RHS and Horticultural Colleges.

Our Magical Willow Workshops help participants to learn about the natural environment and create faerie garlands, wands, stars and creatures using willow and other materials such as ribbon, leaves, glitter and pinecones.
